Gould & Ratner Receives 2026 SurePoint Ignite Create the Future Award

Michael Hill

Daniel Minjock

Gould & Ratner is pleased to announce that we have been named the recipient of the 2026 SurePoint Ignite “Create the Future” Award, recognizing the firm’s innovative use of technology and data to support smarter decision-making and continued growth.

Presented during SurePoint’s annual Ignite conference, the award recognizes Gould & Ratner’s collaborative approach to using technology across the firm, including SurePoint Legal Insights and Finance Enterprise, to strengthen processes, inform strategic decisions, and identify new opportunities.

“The team at Gould & Ratner continuously pushes the boundaries of what’s possible with our technology,” said Amy Flaherty, Vice President of Customer Growth at SurePoint. “Their forward-thinking approach even helped support the firm’s expansion into a new office in Denver, making them a great example of what it means to create the future for their firm.”

We’re proud to be recognized for the work happening across our firm to put technology and data to work in ways that support our people, our growth and, ultimately, our clients.
